PROFESSIONAL SUMMARY

Results-driven Data Analyst with 2.5+ years of experience in Data Analytics, Business Intelligence, Data Warehousing, and SQL Development. Expertise in Power BI, DAX, Advanced SQL (CTEs, Window Functions, Stored Procedures), Data Modeling (Star Schema, Fact & Dimension Tables), ETL processes, Dashboard Development, and Performance Tuning. Strong experience in KPI reporting, Agile/Scrum environments, UAT testing, stakeholder management, and delivering executive-level insights. Proven success in automating reporting workflows (40% efficiency improvement) and optimizing SQL queries (60% performance gain).

CORE SKILLS

- Business Intelligence & Data Analytics
- Advanced SQL: Joins, CTEs, Subqueries, Window Functions, Views, Stored Procedures, Triggers
- Power BI Desktop & Power BI Service
- DAX (Measures, Calculated Columns, Time Intelligence)
- Data Modeling: Star Schema, Snowflake Schema, Fact & Dimension Tables
- ETL Development & Data Transformation (Power Query)
- Data Warehousing Concepts
- Query Optimization & Indexing
- Row-Level Security (RLS) & Incremental Refresh
- Advanced Excel: Pivot Tables, XLOOKUP, Power Pivot
- Data Cleaning, Validation & Data Governance
- Requirement Gathering & Stakeholder Communication
- Agile Methodology & Jira
- UAT Testing & Production Deployment

WORK EXPERIENCE

Data Analyst | Wildfox Business Advocacy | Jun 2023 – Present

- Designed and developed interactive Power BI dashboards with DAX measures and KPI scorecards.
- Built complex SQL queries using CTEs, window functions, joins, and subqueries for analytical reporting.
- Optimized database performance through indexing and query tuning (60% execution improvement).

- Implemented ETL workflows using Power Query and automated data refresh using Power BI Service.
- Designed star schema data models with fact and dimension tables for scalable reporting.
- Applied Row-Level Security (RLS) and managed data governance standards.
- Collaborated with cross-functional teams in Agile/Scrum environment using Jira.
- Conducted UAT testing and deployed dashboards to production environments.
- Delivered executive dashboards enabling data-driven strategic decision-making.

PROJECTS

Enterprise Sales Analytics Dashboard

- Built end-to-end BI solution integrating MySQL database with Power BI Service.
- Developed DAX-based KPI metrics including Revenue Growth, Profit Margin %, and YoY analysis.
- Designed star schema model improving report performance and scalability.

Financial Performance Monitoring System

- Analyzed 3,000+ records to identify cost leakages and revenue optimization opportunities.
- Created executive-level dashboards with drill-through and interactive filtering.

Automated Reporting & ETL Framework

- Developed SQL stored procedures and scheduled jobs for automated daily, weekly, monthly reporting.
- Reduced manual reporting effort by 40% and improved data accuracy.

TECHNICAL STACK

- BI Tools: Power BI Desktop, Power BI Service, Oracle BI
- Databases: MySQL, PostgreSQL, Oracle, SQL Server
- SQL Tools: SSMS, Oracle SQL Developer, MySQL Workbench
- Programming: Python (Pandas, NumPy – Basics), Java (Basics)
- Version Control: Git, GitHub
- Other: Advanced Excel, Data Warehousing, REST API Basics

EDUCATION

B.E. – Computer Science & Engineering | Bheemanna Khandre Institute of Technology | 2022

CERTIFICATIONS

- Java Full Stack Developer – JSpiders
- HackerRank Certifications – SQL, Angular, JavaScript
