Ajay Dhage

Technical Lead @ Comviva | Scaling Ngage CPaaS | AWS |
DevSecOps | SRE | Linux | Automation | Terraform | Ansible |
Kubernetes | Git | Azure | Prompt Engineering
Karnataka, India

Summary

Greetings! I'm a seasoned DevOps professional with a strong
background in Product Development with 4.9 years of experience,
specializing in the seamless integration of DevOps practices.
My expertise lies in architecting and deploying robust pipelines,
leveraging cutting-edge technologies such as Kubernetes, Helm,
Docker, Jenkins, Ansible, and Terraform.

Technical Proficiency:

DevOps Tech Stack:

1) Version Control: Git, Github, GitLab, BitBucket, Azure DevOps.
2) CI/CD Tools: Jenkins, Team City, Github Actions, Travis CI,
Bamboo, Circle CI, Azure Pipelines, Octopus Deploy, Harness,
CloudBees CodeShip.
3) Containerization: Docker
4) Orchestration: Docker, Kubernetes, Red Hat OpenShift
5) Infrastructure as Code (IaC): Terraform
Configuration Management: Ansible
6) Helm Charts: Kubernetes Package Manager
7) Monitoring and Logging: Prometheus, Grafana, ELK Stack,
Splunk, Dynatrace, Kibana.
8) Collaboration Tools: Slack, Microsoft Teams
9) Artifact Repository: Nexus, JFrog Artifactory, Artifactory, Docker
Container Register, npm, Yarn, NuGet.
10) Cloud Platforms: AWS, Azure, Google Cloud Platform (GCP)
11) Scripting: Bash, Python
12) Continuous Testing: Selenium, JUnit
13) Security Scanning: SonarQube, Clair, Veracode
14) Networking: Nginx, HAProxy
15) Database Migration: Flyway, Liquibase

Key Skills and Abilities:

1) Proven ability to handle multiple projects concurrently, ensuring timely delivery and optimal performance.
2) Passionate about embracing new ideas and translating them into technological solutions.
3) Comfortable with the entire software development life cycle, from conception to deployment.

Professional Approach:

I am committed to delivering results that align with industry best practices and standards. My focus is on creating functional and visually appealing websites that provide a smooth and intuitive user experience.

Career Vision:

Actively seeking challenging opportunities where I can leverage my technical prowess to implement innovative ideas. Eager to contribute to organizational growth while advancing my career in the dynamic field of DevOps.

Let's Connect:

I'm open to collaboration and discussions on exciting projects. Feel free to reach out if you are looking for a seasoned DevOps engineer dedicated to driving technological excellence.

Experience

Comviva
4 years 4 months

Technical Lead
October 2024 - Present (1 year 3 months)
Bengaluru

1) Leading the design and implementation of CI/CD pipelines for efficient software delivery.

2) Overseeing cloud infrastructure management and automation (AWS, Azure, GCP).

3) Driving best practices in configuration management, monitoring, and security.

4) Ensuring smooth collaboration between development and operations teams.

5) Optimizing deployment processes to improve system reliability and scalability.

6) Managing infrastructure as code (Terraform, Ansible, etc.) and container orchestration (Kubernetes, Docker).

7) Implementing monitoring, logging, and alerting systems for proactive issue resolution.

8) Worked towards achieving global mark for Ngage Product listed on AWS Marketplace.

Worked on production deployments for below customers.

● UPS – United Parcel Service (Global logistics and delivery)

● E& – Emirates Telecommunications Group Company PJSC (Formerly Etisalat Group – UAE-based telecom giant)

● KCA – Kuwait Communication Automation

● KSA – Kingdom of Saudi Arabia (Likely refers to Saudi Telecom projects within the region)

● Cell C – Cell C Limited (South African mobile network operator)

● MTN Zambia – Mobile Telecommunications Network Zambia (A subsidiary of MTN Group – leading telecom operator in Africa)

● VIL – Vodafone Idea Limited (India-based telecom operator)

Senior Engineer
February 2023 - September 2024 (1 year 8 months)
Bengaluru, Karnataka, India

1) Deployed a messaging platform multichannel application on kubernetes using helm charts and docker.

2) Worked on CI-CD integration of production ready pipeline for deployment to automate the build, test and deployment processes.

3) Handled multiple AWS environment setups for our team. Resolving issues in setup and deploying the latest releases on the kubernetes setup.

4)Participating in cross functional teams to troubleshoot and resolve complex technology issues

5) Collaborating with software developers to implement Devops practices that increase productivity, improve quality, and reduce time to market

6) Successfully integrated K8sgpt with Local AI as its backend to use in our kubernetes cluster to debug , diagnose and resolve the issues using OpenAI model.

7) Developed a generative AI Chatbot using GPT 3.5 by Open AI.

Engineer
September 2021 - January 2023 (1 year 5 months)
Bengaluru, Karnataka, India

Experienced Product Development Engineer at Comviva, specializing in creating innovative solutions and driving product success through the entire lifecycle, from concept to delivery. Proficient in cross-functional collaboration, agile methodologies, and optimizing product performance to meet customer needs

1) Key Skills: Product Development, Software Engineering, Telecom Solutions, System Integration, Cross-functional Collaboration, Agile Development.

2) Key technology: Java Full Stack, SQL, Angular, Devops, Backend, Testing, REST Api, Springboot

3) Delivery: Built UI screens for the messaging platform, worked on testing the sms features, worked on creating CI-CD pipelines to automate the frontend and backend testing for the customers.

Simplotel
Web Designer/Developer - UI/UX
November 2020 - July 2021 (9 months)
Bangalore Urban, Karnataka, India

1) Led the design and development of high-performance hotel websites, delivering user-friendly interfaces and seamless experiences.

2) Collaborated with 25+ leading hotel brands, including Wonderla, Sarovar, Aramness, and Dream Hotels, ensuring tailored solutions to enhance their online presence.

3) Worked extensively on Hotel Management CMS, optimizing functionalities for better user engagement and backend efficiency. Proficient in tools like JIRA, Trello, and Agile methodologies to manage workflows.

Unschool
Operations Executive

May 2020 - July 2020 (3 months)
Hyderabad, Telangana, India

1) Managed Sales Operations: Drove sales efforts by promoting and selling Unschool's diverse educational courses to potential learners.
2) Client Engagement: Actively engaged with prospective customers to understand their learning needs and provide course recommendations.
3) Customer Support: Delivered excellent customer service, addressing inquiries and resolving issues related to course offerings.
4) Sales Tracking: Maintained and tracked sales metrics to ensure targets were met and reported on performance.
5) Collaborative Coordination: Worked closely with the marketing and course development teams to ensure seamless communication and alignment on course offerings and promotions.
6) Increased Course Enrollments: Contributed to increased enrollments by effectively communicating the value of courses to the target audience.
7) Promoted Lifelong Learning: Supported Unschool's mission of making education accessible, promoting continuous learning among individuals.

JUST WEB INFOTECH

May 2020 - June 2020 (2 months)
India

1) Created and executed tailored digital marketing strategies across SEO, PPC, social media, and content marketing.
2) Managed and optimized Google Ads and Facebook Ads campaigns for higher ROI.
3) Conducted keyword research and implemented SEO tactics to boost organic traffic.
4) Developed and scheduled engaging social media content to increase visibility and engagement.
5) Analyzed campaign data with Google Analytics, providing actionable insights for continuous improvement.
6) Collaborated with clients to meet specific business goals, from lead generation to brand awareness.

JUST WEB INFOTECH
Wordpress Specialist
February 2020 - March 2020 (2 months)
Bidar, Karnataka, India

Internshala
Official Internshala Student Partner of Guru Nanak Dev Engineering
College Bidar
December 2019 - February 2020 (3 months)
Bidar Area, India

1) Represented Internshala: Acted as the official student partner, promoting
Internshala's internship and training opportunities across campus.
2) Campus Outreach: Led campaigns to raise awareness about internship
opportunities, reaching out to students to encourage registration and
participation.
3) Event Management: Organized workshops, webinars, and events to guide
students on how to find internships and build careers.
4) Collaboration: Collaborated with faculty and student groups to maximize
participation in Internshala programs.
5) Student Support: Provided personalized guidance to students on applying
for internships, improving their profiles, and acing interview processes.
6) Marketing & Promotion: Utilized social media and on-campus marketing
strategies to promote Internshala's initiatives, ensuring maximum engagement.
7) Networking & Skill Development: Fostered connections between students
and industry professionals, helping students gain valuable insights and career
advice.

Guru Nanak Dev Engineering College, BIDAR
Vice Chairperson Of Techno Cultural College Fest "Ebuzz -11"
September 2019 - February 2020 (6 months)
Bidar Area, India

1) Led and organized one of the largest college fests, Ebuzz-11, ensuring
smooth coordination across various teams.
2) Managed event planning, logistics, and execution, driving a successful
turnout and participation.
Collaborated with sponsors, vendors, and volunteers to enhance the overall
event experience.
3) Spearheaded marketing and communication strategies, boosting event
visibility and engagement.
4) Developed leadership, team management, and problem-solving skills in a
fast-paced, high-pressure environment.

Intel Corporation
Internship
July 2019 - August 2019 (2 months)
Bidar Area, India

1) Interned at Intel, gaining hands-on experience in machine learning, Python, and artificial intelligence.

2) Worked with Intel Edison board, developing small projects to integrate with Firebase and Thingspeak servers.

3) Gained proficiency in PyCharm for project development and deployment.

4) Developed practical skills in IoT and cloud-based solutions, implementing real-time data monitoring and automation.
